

Ultra-large capacity portable energy storage

Overview

What is CATL Teneo energy storage?

"To meet the expectation of a BESS system that has high energy density, small footprint, simpler AC-side configuration, and flexible deployment, we bring the latest CATL TENER energy storage solution. It breaks the limitations of power capacity and product transportation, and makes breakthroughs in space utilization, energy efficiency, and cost."

Is CATL Teneo energy storage a Bess system?

"CATL has always been at the forefront of the energy transition," said Amanda Xu, CTO ESS & President of ESS Europe CATL. "To meet the expectation of a BESS system that has high energy density, small footprint, simpler AC-side configuration, and flexible deployment, we bring the latest CATL TENER energy storage solution."

How many large-capacity energy storage cells are there in China?

This year's exhibition saw participation from over 120 Chinese energy storage companies, which unveiled hundreds of new storage products and solutions. Among them were more than 20 large-capacity cells, covering capacities such as 392Ah, 472Ah, 587Ah, and 684Ah.

Are large-capacity storage cells reshaping the energy storage industry?

As the most significant technological advancement in the energy storage industry, large-capacity storage cells are rapidly reshaping every segment of the energy storage supply chain.

Ultra-large capacity portable energy storage

World's First Mass-Producible! CATL Launches 9MWh Ultra-Large-Capacity

On May 7th, 2025, CATL has unveiled the world's first mass-producible 9MWh ultra-large-capacity energy storage system solution, TENER Stack, setting a new industry ...
