

Uninterruptible power supply installation in office building

Overview

What is an uninterruptible power supply (UPS)?

An uninterruptible power supply (UPS) provides a source of power for the equipment it protects. If there is a disruption to power, the UPS has an on-board battery to automatically supply to electrical equipment until the disruption is over or back-up generators kick-in. What is a WIMES UPS?

.

Can a containerised ups be installed on a roof?

Yes, a containerised UPS (uninterruptible power supply) system can be installed on a roof, car park or where space is limited. Can I buy a replacement UPS battery?

Replacement batteries can be purchased for UPS. Replacing the batteries every 3-5 years can extend the lifespan of your UPS. We can advise you on the best battery for your product.

Does vital power offer UPS installation services?

Vital Power offers a range of UPS installation services, and can help choose the perfect location. UPS rooms will also need to be well-ventilated and kept clean and free from debris.

What is a water power supply (UPS)?

WIMES (Water Industry Mechanical and Electrical Specifications) UPS (uninterruptible power supply) is a robust critical power system built for harsh atmospheres such a dusty environments, moisture and humidity, as well as extremes in temperature and sites where robust solutions are required.
