

# Victoria Energy Storage solar Power Station

## Overview

---

What is the Muskerry solar power station?

Australia's Environment Minister Tanya Plibersek has announced approval for the Muskerry Solar Power Station, a 250 MW solar farm and 200 MW, four-hour battery energy storage system being developed by Edify Energy in Victoria.

Where is the largest power station in Victoria?

The Geelong B Power Station - with a capacity of 30,000 kilowatt (30 MW) was located in North Geelong, overlooking Corio Bay. This Power Station was the largest power station in Victoria outside the Latrobe Valley.

How many MWh will edify power station generate a year?

Once complete, the power station is expected to generate up to 612,000 MWh clean energy per year. Edify said the battery energy storage system would assist in delivery of power to the network during peak demand times.

Could a battery energy storage system be used for sheep grazing?

Edify said the battery energy storage system would assist in delivery of power to the network during peak demand times. Much of the proposal site is currently used for agricultural purposes and Edify said it will work with stakeholders to explore the potential introduction of sheep grazing once the project is operational.
