

Victoria solar Energy Storage Integrated Machine

Overview

Who invested in a battery energy storage system (BESS)?

Equity capital contributions from key investors, including Rest, the Clean Energy Finance Corporation (CEFC), and clients of Westpac Private Bank, through Octopus' managed funds, have supported the project. The project plans to incorporate a 64MW/128MWh DC-coupled utility-scale battery energy storage system (BESS).

Does octopus Australia have a solar-plus-storage project in Victoria?

Octopus Australia has completed financial close and started construction on its 80MW Fulham solar-plus-storage project in Victoria.

How will rest benefit from the Fulham solar farm & battery project?

Rest's interim co-chief investment officer, Simon Esposito, noted that its members will benefit from the "attractive risk-adjusted return prospects of the Fulham Solar Farm and Battery project, as well as from having additional renewable energy assets in their communities."

How many mw / 10 MWh is ingecon Sun Storage?

Each of the seven sites has a capacity of 5 MW / 10 MWh and is equipped with INGECON SUN STORAGE FSK C-Series HV solution, rated at 4.988 MVA (AC). The total supply amounts to 35 MW / 70 MWh of utility-scale energy storage capacity.
