

# Vietnam Communications 5G Base Station Infrastructure Construction Project

## Overview

---

Does Viettel have 5G?

The company launched its 5G services on October 15, 2024, covering central areas in all 63 provinces and cities. By 2025, Viettel plans to expand its network by deploying approximately 20,000 new base stations, raising its 5G infrastructure to 50% of its 4G network.

What is Vietnam's Digital Infrastructure Strategy for 2025?

Vietnam's Digital Infrastructure Strategy for 2025, with a vision toward 2030, underscores that "digital infrastructure is the backbone of the economy." It sets a target that by 2025, all localities, high-tech zones, IT hubs, R&D centres, innovation hubs, industrial parks, railway stations, seaports, and airports will have access to 5G services.

How many 5G base stations will VNPT install this year?

According to Nguyen Anh Dung, Director of Enterprise Customer Division at VNPT, the company is expected to install approximately 20,000 new 5G base stations across the country to enhance network connectivity this year. VNPT effectively deploys Smart Agriculture Solution - ONE Farm. (Photo: VNA).

Which 5G network will be launched in Vietnam in 2024?

16 GB (2024) vs 34 GB (2030) Viettel launched the first commercial 5G network in Vietnam on 15 October 2024 across some 6,500 plus sites in 63 provinces/cities. VNPT (Vinaphone) is expected to launch later in November 2024 followed by Mobifone in early 2025.<sup>1</sup> However, there remains much work to be done to ensure the adequate spectrum resources
