

# **Waterproof Folding Containers for Fornaftty Airport**

## Overview

---

Are foldable steel storage containers safe?

As well as being highly flexible, foldable steel storage containers are also very secure. They are made from galvanised steel which means they are theft and vandal proof.

What is a foldable steel storage container?

Foldable steel storage containers come in three lengths, each with a standard width of 2.1m. The smallest size is compact enough to be used as a garden shed, even in a small back garden in the most restricted of spaces. These products are also modular, so you can expand on storage space at any time by joining three units together.

Why should you choose FLEXcon airport security bins & trays?

Flexcon's airport security bins and trays are engineered for extreme durability and longevity, making them the ideal solution for high-traffic, demanding environments.

What are airport security checkpoints used for?

While essential for airport security checkpoints, their robust construction and practical features make them perfectly suited for a wide range of applications across hundreds of industries, including general storage, organization, tooling, and transportation. "I love helping customers find the perfect products to meet their specific needs."
