

Wholesale solar power station in Israel

Overview

Where is the largest photovoltaic power plant in Israel?

the largest photovoltaic power plant in Israel was built in December 2014 at Ramat Hovav, over a risky dumpsite.

What is Israel's second-tallest power station?

The Orot Rabin power station owned by the IEC has Israel's second-tallest structure, a chimney, standing at 300 m, while Tel Aviv's distinctive Reading Power Station was one of its earliest. Israeli former Olympic sailor Shimshon Brokman worked for Israel Electric Corporation from 1988.

What is the goal of the Ashalim solar station?

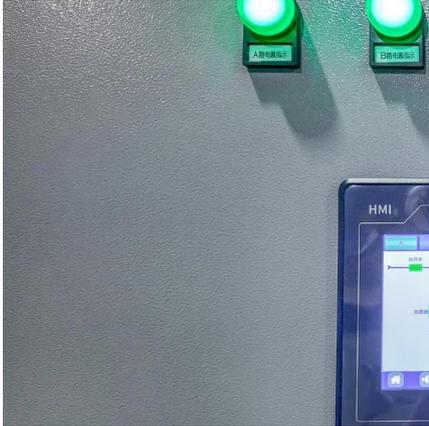

Its goal is to generate 10 percent of Israel's energy by 2020 from clean resources. The Ashalim solar station is located in Israel's Negev desert, close to the Ashalim kibbutz. It is divided into 3 plots, each with different technology. The station uses three different types of energy: photovoltaic, solar thermal, and natural gas.

Is solar energy cost-competitive in Israel?

In Israel, solar technology has progressed so much that it is nearly cost-competitive with fossil fuels. The Negev Desert's high yearly solar incidence has fostered an internationally recognized solar research and development industry.
